**Reading aloud to children
is the single most important activity
for future success in reading skills!**

And the emotional bonding that comes from reading to your child lasts a lifetime? The folks at **United Through Reading*** work tirelessly to ensure that our deployed military men and women have an opportunity to read to their children while halfway around the world! The nationally-acclaimed program provides the opportunity for deployed service members, whether on a ship in the Gulf of Aden or a tent in Afghanistan, to be video recorded reading a book to put on DVD and send home. **United Through Reading** helps bring Mom or Dad back home for a bedtime story every night.
