First 400 – then the 500

The State Street Beautification project is almost complete. The 400 block is open and the 500 block will be soon. The improvements are really quite nice. You'll find wider sidewalks, more trees and lots and lots of new landscaping. Come take a look, the merchants will really be glad to see you. The fact is it's been tough on them, but now that it's almost complete check out the interesting stores, the great fun spots and the wonderful food offerings. And guess what? When the dust finally did settle and the air cleared we found two new businesses opening their doors at State and Haley: *The Greek House Café* and *Arcobaleno Trade* (Fair traded ethically produced merchandise).

*Well maybe they do sit next to an old alley . . .
. . . but we hope to convert it to a paseo real soon!*
