Raising the Bar . . .

The Community Environmental Council has been educating our community – if not the entire nation – on the need, importance and advantages of *recycling*. Now they are going to the *next level*: the focus will be on the *need for alternative energy*.* We wish them well in this endeavor - and in the meantime encourage you to walk more, consider the bicycle and if you don't already use our free pick-up and delivery service, do so and you can drive less. Thank you, CEC.

** Of course we will continue to use Green Earth, provide "Caddys" to collect your hangers, recycle paper, plastic and our dry cleaning solutions.*
